

Finalities

The next two to look out for The Vortex Factor Bridges of Time

This is my first compilation book, and one I think that is challenging as well as entertaining. Although I will not try and influence your reading my favourites are The Haywain, The Time Machines, and Red, but having written them I could easily be accused of bias! However, if you enjoy the reading as much as I did the writing, then I am not only happy, but gratified that you have been entertained.

Phil Phoenix.
