

# The Vortex Factor

Also available - Finalities

And coming soon  
Bridges of Time

My second compilation book has seven stories instead of six. Why, because you deserve it! As a story I had originally intended Galactic Summons as a novel, but having finished it changed my mind as it had then become a complete story. Not wanting to spoil it I resisted the temptation to tinker, but then figured that you the reader might enjoy it, and so you have benefitted. That makes me happy.

Phil Phoenix.

All we can do is pray that our  
children will be cleverer than us!
